

Quality, Health, Safety & Environment Policy

To be recognized as the industry benchmark for **Health, Safety, & Environmental Stewardship**, driving a "Zero Harm" culture while powering a sustainable future.

Health, Safety & Environment (HSE) Policy

At **Green Solergy Engineering**, QHSE is cohesively integrated into our purpose, values, and engineering DNA. As a trusted leader in Solar EPC, Transmission, and Construction solutions, we are chosen by businesses not only for our technical expertise but for our unwavering commitment to delivering energy needs in a way that is environmentally responsible and safeguards the well-being of all stakeholders.

Green Solergy Engineering is committed to:

- **Protecting People & Communities:** Conduct business in a manner that prioritizes the health, safety, and security of our employees, customers, contractors, and the communities in which we operate.
- **Environmental Stewardship:** Protect the environment by actively preventing pollution, minimizing resource consumption, and implementing rigorous recycling and waste management practices across the entire product life cycle.
- **Integrated Operations:** Strengthen our operational resilience by making QHSE considerations a non-negotiable, integral part of every business decision, from design to delivery.
- **Cultivating a Safety Culture:** Promote a proactive culture of continuous learning where practicing rigorous HSE management is second nature to every employee and contractor on site.
- **Transparent Accountability:** Develop and implement transparent HSE performance measurement and reporting systems, ensuring accountability to our employees, stakeholders, and the public.
- **Risk Elimination:** Systematically identify hazards and relentlessly reduce Occupational Health & Safety (OH&S) risks associated with our operational activities to achieve zero incidents.

GREEN SOLERGY ENGINEERING PVT. LTD.

- **Continual Improvement:** Set ambitious HSE objectives to continually improve performance, ensuring progressive compliance with all applicable laws, ISO standards, regulations, and client requirements.
- **Empowerment & Training:** Ensure that HSE is a shared core responsibility, supported by a workforce that is appropriately trained, empowered to stop unsafe work, and held accountable at all levels of management.

Engr. Mohsin Ihsan
